

# STABILITY AND EASE OF USE AT A HIGH LEVEL

Discover the V.I.P. **Hydraulic Levelling  
System** for Motorhomes

As a motorhome enthusiast, you know how crucial it is to have a stable and comfortable pitch at every destination. The V.I.P. hydraulic levelling system for motorhomes offers the perfect solution: an advanced system that effortlessly levels your motorhome, regardless of the terrain. Proudly designed and manufactured in the Netherlands, this system combines top-quality components, decades of hydraulic expertise, and cutting-edge technology to deliver unmatched stability, reliability, and user-friendliness.

#### STABILITY WITH HYDRAULIC PRECISION

The V.I.P. levelling system utilises powerful hydraulic cylinders, manufactured from premium materials by leading Dutch hydraulic specialists with years of experience in the field. Unlike mass-produced alternatives from outside the EU, these cylinders are engineered in-house to exacting standards, ensuring your motorhome is firmly and stably positioned in no time, even on uneven surfaces. The accompanying powerpack, also produced with high-quality, EU-manufactured components, regulates the pressure and distribution of hydraulic oil with unrivalled precision. This guarantees a perfectly balanced motorhome

every time, ready for a relaxing stay, backed by the reliability you can trust from European craftsmanship.

#### INTUITIVE OPERATION WITH TOUCHSCREEN PANEL

What truly sets this system apart is its user-friendly touchscreen panel, designed and developed in-house for seamless operation. Responsive and intuitive—like a modern smartphone—it allows you to level your motorhome with just a few taps. No manual adjustments or complex controls; the V.I.P. system blends convenience and technology into a sleek, stylish design, reflecting the high standards of Dutch engineering.

#### V.I.P. HYDRAULIC LEVELLING SYSTEM

- **Uncompromising Quality:** Manufactured in the Netherlands, using durable, EU-designed and manufactured hydraulic cylinders and powerpacks for long-lasting performance—not mass-produced imports from China.
- **User-Friendly:** A fast, intuitive touchscreen, comparable to your smartphone, designed in-house for ease of use.
- **Reliable Stability:** Perfectly level, wherever you are, for optimal comfort.
- **Time-Saving:** Quick, automatic levelling without hassle.
- **Expert Installation & Support:** Fitted by fully trained workshops across the EU & UK, with comprehensive warranty periods for peace of mind.

Whether you're off for a weekend getaway or a long journey, the V.I.P. hydraulic levelling system ensures a stable, worry-free motorhome experience. Curious about how this Dutch-engineered system can elevate your adventures? Contact an authorised dealer or explore the options for your motorhome!

---

#### Low Inherent Weight

- More payload capacity for your motorhome.
  - Only 60 kg, including stainless steel footplates, with no compromise on quality.
  - Features four telescopic cylinders for maximum ground clearance.
- 

#### Fast, Precise, and Reliable Levelling

- Powered by state-of-the-art electronics, developed in-house.
  - Uses approved automotive-grade connectors and housings.
  - Torsion-free levelling by operating two cylinders simultaneously, minimising chassis strain.
  - Built with the highest-quality hydraulic components from trusted EU suppliers.
- 

#### Maximum Luxury and Comfort

- Touchscreen control panel with stunning graphics, designed in the Netherlands.
- Easily expandable with a Bluetooth remote control.
- Levels in approximately 1 minute.

V.I.P., short for Vehicle Improvement Products, is a Dutch brand synonymous with quality and innovation. Founded with a mission to elevate motorhomes and commercial vehicles, V.I.P. designs and produces all its high-quality technical solutions in-house within the EU. Partnering with experienced Dutch hydraulic companies, V.I.P. ensures every product meets rigorous European standards—far removed from the inconsistencies of overseas manufacturing. Whether you're a passionate camper or a professional relying on a dependable commercial vehicle, V.I.P. delivers comfort, stability, and functionality you can trust.

#### SPECIALIST IN HYDRAULIC LEVELLING SYSTEMS AND AUXILIARY SUSPENSION

V.I.P.'s flagship hydraulic levelling system for motorhomes is a testament to Dutch expertise, levelling your vehicle quickly and effortlessly on even the toughest terrains. Additionally, V.I.P. offers auxiliary suspension solutions for motorhomes and commercial vehicles, improving road handling, stability, and driving comfort—all designed and manufactured in the Netherlands. Every system is installed by fully trained professionals, with robust warranty periods ensuring long-term reliability.

#### WHY CHOOSE V.I.P.?

- Superior Quality: Designed and built in the EU with cutting-edge technology and durable materials by hydraulic experts.
- Versatility: Suitable for both motorhomes and commercial vehicles.

- Technical Excellence: Optimises stability, comfort, and safety on the road.

With V.I.P. – Vehicle Improvement Products, you're choosing innovative, Dutch-made solutions that stand out for their quality and precision. Discover the range and experience the benefits of European technical perfection!
